

# Balance of payments

US, 2023, in millions of \$

Equation:

$$\text{Financial account} = \text{Current account} + \text{capital account} + \text{statistical discrepancy}$$

in numbers: - 924.123 = - 905.376 - 6.320 - 12.427

\* minus sign (-) 'Financial account':  
Surplus of imports of investments

Source: [www.bea.gov/data](http://www.bea.gov/data) (>>> International Trade & Investment >>> International Transactions) (2024-12-30)

The equation again:

Financial account = Current account + capital account + statistical discrepancy

Financial account - 924.123 = Current account - 905.376 + Capital account - 6.320 + Statistical discrepancy - 12.427

or
